

# Juneau (XL)

Optimyst® | 230V/50Hz | 250/400 Watt

Juneau

Juneau XL

The Juneau is an electric inset fireplace unit, ready to be installed into nearly any interior space or indoor object, including inactive gas or wood fireplaces. The threedimensional Optimyst® fire image comes from cold water vapor and light, which is startlingly realistic, can be seen from all sides, and is safe to touch. A practical detail: the water reservoir can be refilled from the front, without removing its glowing log set. In a few words: the Juneau is a perfect basis for great fireplace projects.

- Suitable for installation projects and designed to fit into a custom-made frame or fireplace
- Easy-fill water tank, offers around 8-10 hours of continuous operation before refilling is required
- The water tank is very easy accessible through a drawer in the front
- Log set included

# Juneau (XL)
